AI Artist & Generative Imagery Specialist

Generative Imagery & AI Art Showcase

EXECUTIVE PORTFOLIO • COMMERCIAL & CONCEPTUAL

A curated presentation of generative AI concepts, production-ready 3D miniatures, photorealistic hardware visualizations, cinematic environments, and stylized characters.

Designed to demonstrate pipeline orchestration, prompt engineering fidelity, and creative capabilities for commercial work partners.

GENERATIVE ENGINES: Midjourney · ChatGPT · NanoBanana · ComfyUI

Capabilities, Specializations & AI Workflow

High-fidelity generative pipelines tailored for production-grade concept art and commercial creative needs.

01. Creative Domains

- **3D Printable Miniatures**
  High-detail resin figurine sculpts with clean edge definitions and hard surfaces.
- **Product & Hardware**
  Photorealistic consumer electronics, tactile clickers, and microchip PCBs.
- **Characters & Fashion**
  Studio daylight photography, fabric micro-textures, and high-fashion portraiture.
- **Sci-Fi & Environments**
  Cinematic space modules, atmospheric landscapes, and worldbuilding concepts.

02. AI Pipelines & Tooling

- **Midjourney v6 & Niji**
  Aesthetic composition, hyper-detailed textures, and evocative cinematic lighting.
- **ChatGPT Concepting**
  Rapid prompt ideation, iterative composition logic, and stylized asset synthesis.
- **NanoBanana Rendering**
  Tailored model tuning, experimental character design, and expressive palettes.
- **ComfyUI Node Graphs**
  Modular multi-pass generation, LoRA integration, ControlNet, and 4K upscaling.

03. Value for Work Partners

- **Rapid Prototyping**
  Compress weeks of initial visual concepting into agile, 24-hour iteration cycles.
- **Production-Ready**
  Outputs designed for downstream 3D modeling, game asset rigging, and print.
- **Custom Embeddings**
  Cohesive character and style consistency across extensive multi-asset batches.
- **Commercial Rights**
  Full pipeline clarity with transparent model attribution and prompt archives.

DOMAIN 01 / 05

3D Miniatures & Figurines

High-Detail Figurine Concepts Optimized for Resin 3D Printing

Intricate character concepts, mechs, and tactical warriors sculpts engineered specifically for resin printing, hobbyist painting, and tabletop gaming immersion.

PRIMARY PIPELINES: Midjourney

#001

3D Print Miniature - Cyber Paladin

Midjourney | 3D Miniatures

Intricate sci-fi tabletop miniature concept optimized for 3D printing.

#002

3D Print Miniature - Tactical Mech

Midjourney | 3D Miniatures

Detailed hard-surface mech figurine designed for 3D printing and hobbyist painting.

#003

3D Print Miniature - Locomotive

Midjourney | 3D Miniatures

Detailed hard-surface locomotive figure designed for 3D printing and hobbyist painting.

#004

3D Print Miniature - Zeppeline

Midjourney | 3D Miniatures

Detailed hard-surface zeppeline figure designed for 3D printing and hobbyist painting.

#005

3D Print Miniature - Sword

Midjourney

Detailed hard-surface sword figure designed for 3D printing and hobbyist painting.

#006

3D Print Miniature - Paladin

Midjourney

Detailed paladine figurine designed for 3D printing and hobbyist painting.

#007

3D Print Miniature - Space Marine

Midjourney

Detailed WH 40000 Space Marine figurine designed for 3D printing and hobbyist painting.

DOMAIN 02 / 05

Product & Hardware Concepts

Tactile Consumer Electronics, Ergonomics & Microchip PCBs

Industrial design visualizations highlighting precision surfacing, tactile mechanical buttons, anodized finishes, and high-density semiconductor circuit trace rendering.

PRIMARY PIPELINES: ChatGPT Midjourney

#008

Clicker Device - Macro Showcase

ChatGPT

Industrial design concept of a tactile clicker device highlighting ergonomics and precision surfacing.

#009

Clicker Device - Studio Angle

ChatGPT

Three-quarter product angle displaying tactile button mechanisms and minimalist housing.

#010

Clicker Device - Top Profile

ChatGPT

Top-down layout showcasing button placement, matte finish materials, and ergonomic contours.

#015

Handheld Device - Concept 01

Midjourney

Photorealistic visualization of an electronic hadheld device.

#016

Hadheld Device - Concept 02

Midjourney

Photorealistic visualization of an electronic hadheld device.

#017

Compact Electronic Module

Midjourney

Sleek hardware module with matte dark anodized casing, LED indicators, and connection ports.

DOMAIN 03 / 05

Characters & Studio Fashion

Natural Daylight Studies, Fabric Micro-Textures & Portraiture

Studio portrait photography render series exploring fabric textures, natural skin tones, soft shadow gradients, and garment drape across minimalist fashion concepts.

PRIMARY PIPELINES: Midjourney

#021

Outdoor Fashion Study - Black Tee Mockup

Midjourney

Outdoor portrait photography render highlighting fabric texture, natural skin tones, and soft shadows.

#022

Studio Fashion Study - Olive Tee Mockup

Midjourney

Natural studio portrait study capturing subtle facial expressions and garment drape.

#023

Studio Fashion Study - White Tee Mockup

Midjourney

Clean minimalist studio portrait exploring photorealistic lighting and realistic micro-details.

DOMAIN 04 / 05

Environments & Sci-Fi Worlds

Cinematic Atmospheric Landscapes & Futuristic Habitat Modules

Expansive environment concepts ranging from converted orbital space station lounges with ambient neon illumination to moody twilight sea cliffs and vehicles.

PRIMARY PIPELINES: Midjourney ChatGPT

#011

Space Beer Fest

Midjourney

Atmospheric sci-fi scene featuring a converted orbital module with ambient neon illumination.

#013

Coastal Lighthouse at Twilight

Midjourney

Dramatic sea cliff landscape with a towering lighthouse, moody volumetric fog, and ocean waves.

#018

Female Explorer

ChatGPT

Sci-fi cinematic female explorer character in an expansive landscape.

DOMAIN 05 / 05

Creatures & Stylized Art

Anthropomorphic Mascot Studies, Classical Still-Lifes & Mascots

Stylized art series blending whimsy with craftsmanship — from vintage biker foxes in leather jackets to sophisticated mascot concepts and classical oil paintings.

PRIMARY PIPELINES: Midjourney ChatGPT NanoBanana ComfyUI

#012

Fox Biker Squad

Midjourney

Whimsical illustration of anthropomorphic fox bikers dressed in vintage leather motorcycle jackets.

#014

Lily of the Valley in Ceramic Vase

Midjourney

Classical still-life painting of delicate lily of the valley blossoms in a rustic ceramic vase.

#019

Felline Feast - Cat Food Commercial

ChatGPT

Photorealistic visualization for a cat food commercial.

#020

Mr. Fox Gentleman Mascot

Midjourney

Sophisticated fox character illustration in tailored vintage gentleman attire.

#024

Captain Lizzard - Custom Character

NanoBanana

Photorealistic anthropomorphic lizzard character visualization.

#025

Mario Doom Slayer - Custom Character

ChatGPT ComfyUI

Mario and Doom Slayer character crossover.

Commercial Collaboration & Partnership

Flexible creative workflows designed to accelerate product concepting, gaming, and marketing production.

SERVICES & COLLABORATION MODES

[+] Concept Art & Visual Development

Rapid visual exploration for sci-fi, characters, and tabletop gaming IPs with 24-hour turnaround.

[+] 3D Miniature & Figurine Concepting

Multi-view sculpt concepts optimized for high-resolution resin printing, joints, and casting.

[+] Hardware & Product Visualization

Photorealistic studio renders of prototypes, consumer tech, and precision microelectronics.

[+] Custom AI Pipelines & Workflows

Bespoke ComfyUI nodal architectures, LoRA fine-tuning, and model blending for enterprise teams.
